Algorithm

INNOVATIVE PRICING MODEL

Hospiflow works with a software license with different pricing levels, depending on the needs of the user. To this software license, the user can link as many uroflowmeters as desired.

Whether working in a private practice or large hospital, the Hospiflow pricing scales with the user.

- + Low capital investment
- + Software license: duration of 1, 3, 5 or 7 years
- + Link as many uroflowmeters as desired
